7.3 Best Practice

Best Practice No.1

Anna Vitran Yojana-An initiative by College Management

Goals:

- To uplift the society.
- There are uncountable numbers of people goes to bed without food, we at LDS try to help and support some of these unprivileged population.
- Providing food grain and other day-to-day essentials vulnerable society.
- Maintain and develop food donor relationship.
- To attempt socialization in the matter of distribution of essential commodities.
- An attempt to reduce malnourishment.
- To build stronger community and promote equality.

Context:

“Shri Mahalaxmi Krupa Mofat Ann DhanyaVitranYojana” is the name of the project initiated by Dr.(Shri).VijaynarayanPandit (General Secretary of L.D Sonawane College) and handled by management and staff of the college , where funds are collected from members registered voluntarily to serve the society, the contribution by each member is Rs.1000/- per month . Initially the distribution was made to 25 families, where the number has increased to 30 families. The core objective is to strengthen the underprivileged and economically backward population by actively implementing food distribution program. This consistent and persistent implementation will bring about unprecedented improvement in the lives of these people. It is aimed towards fulfilling daily nutritional requirements to poor unprivileged population. In a country where rich poor divide the stark and while millions splurge on good food , management find it unacceptable that still many go to bed without any food. Management and college is passionate and dedicated towards feeding unprivileged population in surrounding areas. A donor centric approach has been adopted where attempts have made to reduce inequalities and injustice towards unprivileged societies.

Implementation:

Anna VitranYojana is conducted on 1st Saturday of every month since December 2016.The Pioneering work behind this is started by our General secretary Dr.(Shri).VijaynarayanPandit, who is an active social worker since decades. He came up with an idea of getting more close to the society by serving them in real sense by fulfilling their basic needs. He put forth an idea in front of the other members of management committee, where his idea was highly appreciated. The members started contributing RS 1000/- monthly, as most of the members mainly belongs to wholesale merchant society, in addition to this amount they also contributes some essentials. Due to inhouse publicity by staff members, the beneficiaries are getting the information about the Yojana and dates of distribution. Before the date of distribution, the beneficiaries need to register themselves at “May I help you “counter in the college. On the day of distribution the management members themselves with the help of college staff distribute the essentials to beneficiaries followed by lunch.

Problems encountered and Resources Required:

- Managing and Gathering resources.
- Limited capacity when compared with population.

Evidence of Success:

Management is actively participating in the “Anna Vitran Yojana”, where due to this initiative various people from outside the college have also shown their interest and active participation in this noble cause of social upliftment where beneficiaries have increased from 25 to 30 families. The teaching and non-teaching staffs are also actively coordinating with management to serve the society. This initiative by management has also sensitized the students towards the unprivileged population. This attempt of management clearly indicates their responsibility towards the society, by not only educating the youth but also serving the weaker section of society.

Best Practice No.2**STUDENTS SOCIAL RESPONSIBILITY****Goals**

- To make the educational institution socially and culturally relevant.
- To develop students so that they can become responsible in their actions that has an effect on community outside their immediate circle.
- To inculcate social values amongst young minds for their commitment towards society.
- Increasing awareness of sustainability issues.
- Allowing students to apply their knowledge, passion, and skills in the pursuit of humanitarian goals.
- To develop Social Responsibility not only in classrooms, but through the experience. By offering opportunities to students to develop their social awareness, and preparing students for a better nation building.
- To become mediators between the educated minds and the community.

Context:

Higher education institute hold the greater responsibility of bridging the gap between learned ones and the people who need education. One of the ways for bridging the gap is through social work which requires a lot of commitment from the faculty members and cooperation from local communities, government and non government organization network. Such activities go a long way in developing humanitarian attitude to serve the society in various ways and achieve coordination between the education sector and community development program practically. To achieve this goal college has taken a pioneering step by adopting the Ghotsai village to carry out required social activities. College had put it efforts and have developed the village, this practice has ignited the minds of students to acquaint refined ideas and helped them to grow up as responsible citizen also will help in building nation. To achieve the same, college has developed coordination with communities/NGOs and other bodies to carry out required social activities.

Implementation:

The college students, faculty and alumni together conduct several activities such as:-

- Guidance seminar for MPSC and UPSC exams was conducted for students to create awareness among students to set their goals.
- Every year blood donation camp is organized where students donate blood and college also creates awareness about reasons for blood donation.
- Many Students organize and participate in cleaning environment drive after Ganpati festival.
- Students have contributed by providing relief fund to people affected due to natural calamities.

- Every year before admission process starts students motivate people to carry on education whose degree could not be completed due to personal reasons.
- Rally was organized at Subhash maidan and CST to create awareness on “Swatchta Abhiyan”, “Tree Plantation” and “Save girl Child”, also students actively participated in rally held at Marine Drive by Mumbai University on “Organ Donation”
- Visit to Old age home was arranged to change the attitude of youth towards the aged people.
- College has adopted a village Ghotsai which was a Heaven for illegal activity but due to the social activities carried by students, village has received the award for best village and even use of solar energy is implemented with the help of college in village.

Problems encountered and Resources Required:

- There was objection from local authorities. College not being a funding body, all the social requirement cannot be fulfilled due to difficulty in arranging social work programs, teaching etc. Resources like medicines, food grains, self employment schemes need to be generated at larger scale. College faces resource crunch in this regard. Scarcity of enough donors and donations from corporate under corporate social responsibility.

Evidence of Success:

- Many students of the college due to awareness created by the authorities are participating in social activities. The faculty members and students of the college are more concerned towards the society as the participation of students have increased in social and environmental drives conducted by the college and thereby the basic aim of education is achieved. All the efforts by college have helped in bringing students in to the mainstream society. College is trying to bridge a gap between learned ones and the people who need education. Inculcates the values of selfless service towards society. Organizes medical camps at Ghotsai village and at college which sensitize the students towards problem of downtrodden people. Street play on the topics like: Save girl child, cleanliness, etc. were conducted which Creates awareness amongst students towards these social evils. Tree plantation drives were conducted which have created environmental awareness amongst students. All these efforts have helped in bringing them into the mainstream society.

7.4 Contribution to environmental awareness / protection:

- Tree saplings were planted as part of “Vriksha Dindi” celebrations in association with NSS.
- Compost pit unit maintained and motivational programs were arranged for students to make them aware of the importance of nature conservation.
- Eco-friendly initiative was adopted for minimizing paper wastage.
- Observance of World environment day.
- Seminars and discussion on current environmental issues.
- Students participated in “Swatchta Abhiyan” observed on 14th August 2016.
- Street play presented by students on cleanliness.
- Botanical garden maintenance and plantation of medicinal plants.

7.5 Whether environmental audit was conducted? No

7.6 Any other relevant information the institution wishes to add (for example SWOT analysis)

Strength

- We follow team worker principle
- Dedicated teaching and non teaching staff
- Students are self motivated and actively participate in all social activities.
- Culture of encouraging and supporting faculties to pursue higher study.
- ISO certified.
- College have been included under section 2(f) and 12 (B) of U.G.C Act of 1956.

Weakness

- As our institution is located in semi urban area, we have limited academically excellent students at entry level.
- Strengthen national and international linkages for faculty and student exchange,

Opportunities

- It is pleasure that our college is getting the opportunities to develop inner qualities of first generation backward section of society.
- Increase opportunities to develop and establish new programs to meet the new and growing demands of society.
- Increasing interest from foreign institutions for collaborations.

Threat

- To solve problem caused by neighbouring dumping ground.
- Scarcity of funds as it is an unaided college, affects infrastructural development.

8. Plans of institution for next year

- Collaborative learning and research through ICT.
- Extra camera for better security.
- Installing water purifiers and filters.
- Strengthening of interdisciplinary research activities
- New class rooms to be constructed.
- Arrangement of Intercollegiate and Interdepartmental competitions exhibition, Seminars and guest Lectures.
